

Howie Marotto

Additive Manufacturing Business Director

As Business Director for AM, Howie's focus at EWI is to provide leadership and strategic direction to continue advancing EWI's vast AM portfolio and delivering cutting-edge solutions to industry. Howie's extensive network makes him a great fit to serve as a liaison between EWI's world-class technical staff and the growing industrial base.

BACKGROUND & PROJECT EXPERIENCE

Howie spent most of his career in the Marine Corps and Marine Corps Reserve (Colonel) where he served as a Policy Analyst and Writer, Aircraft Maintenance Leader, and Logistics Manager. In the latter role, he developed the vision and roadmap for AM technology, then led logistics innovation and integration within the Marine Corps. In his military career, Howie has done two tours in the Pentagon, deployed to Camp Leatherneck in Afghanistan (2011-2012), and deployed in support of Operation Iraqi Freedom from August 2004 to March 2005 at Al Asad Airbase. He also supported units in Operation Enduring Freedom in 2001 and 2002, and units participating in the Kosovo Conflict while stationed in Italy. As a Lieutenant, Howie deployed in support of the No-Fly Zone over Bosnia and participated in Operation Silver Wake involving Albania.

In his corporate career, Howie has worked for the Defense Logistics Agency, in the F-35 Joint Program Office as the Autonomic Logistics Information Systems lead for Foreign Military Sales, and in the power industry as a maintenance and construction supervisor and power distribution manager. Prior to joining EWI, he worked for the Phillips Corporation as the AM Strategic Business Development Manager. He joined EWI in 2020.

EDUCATION
